

**PhD Workshop: Automotive GVCs  
in Central and Eastern European region**

**November 17<sup>th</sup>, 2021**

**10 a.m. – 1 p.m.**

**On-line meeting (via Microsoft Teams)**

Schedule of the Workshop:

Part 1

***Global Value Chains in Central and Eastern Europe: do industry specificities matter?  
(Prof. Magdolna Sass, Center for Economic and Regional Studies - Budapest)***

Part 2

***The Global Value Chains and Decomposition of Bilateral Exports: Case of Visegrad Countries  
and Automotive Sector  
(Prof. Paweł Folfas, Warsaw School of Economics)***

Part 2a

- Global input-output tables
- Global Leontief inverse matrix
- Decomposition of bilateral gross exports
- Examples concerning automotive GVCs in Poland

Part 2b

- Case study: Decomposition of bilateral exports a case study of Visegrad countries and automotive sector

The participants will be provided with Excel files concerning the decomposition of bilateral exports. They will be asked to find appropriate figures and make simple calculations. Based on these calculations, they will solve a test containing a few questions. Participants will send answers to the questions **anonymously** via Microsoft Forms.

The Workshop is organized under the project: **The GVCs in Central Europe – a perspective of automotive sector after COVID-19** with the support of the **Visegrad Fund**.

The project is co-financed by the Governments of Czechia, Hungary, Poland and Slovakia through Visegrad Grants from International Visegrad Fund. The mission of the fund is to advance ideas for sustainable regional cooperation in Central Europe.

Part 2c

Solutions to the tasks and discussion

Part 3

***Recent Case Study Research in the Field of Global Value Chains and the Automotive Sector  
(dr. Eva Křenková, Prague University of Economics and Business)***

In case of any questions, don't hesitate to get in touch with the organizers.

***Paweł Folfas*** - pfolfa@sgh.waw.pl

***Eva Křenková*** - eva.krenkova@vse.cz
